

A206 Face recognition

Upgraded Face Capacity and Performance

With the latest ZK platform and algorithm, the A206 can hold up to 2,500 faces and 2,000 fingerprint templates. It enables company to manage more employees with less terminals. Optional RFID card ensures that customers have more choices to manage time attendance and access control. It also supports multiple authentication methods including face, fingerprint, password, RFID card and their combinations, which makes A206 more applicable. Multi-model communications consisting of RS232/485, TCP/IP, USB host and Wi-Fi/GPRS (optional) allow an extremely easy data management. Optional built-in 2000 mAh battery eliminates the trouble of power failure.

It fulfills your need of managing the time & attendance and access control conveniently.

Feature

- Capacity: 2,500 faces and 2,000 fingerprint templates
- Authentication methods: Face, Fingerprint, RFID and/or Password
- Elegant ergonomic design
- Intuitive touch screen GUI
- Optional built-in backup battery provides approx. 4 hours continuous operation
- Optional Wi-Fi or GPRS for wireless connection
- Built-in interfaces for third party electric lock, door sensor, alarm, exit button, or bell
